EXECUTIVE SUMMARY: The Office of Economic Development, in collaboration with Public and Government Affairs (PGA), established a business spotlight video program in the Spring of 2025. The first series of videos features the ten recent Business Development Grant recipients. These Video Spotlights will be made public on the County website, incorporated into the County's video media, shared by the Commissioners during business and other meetings and utilized by the business for their own professional marketing.

The Office of Economic Development and PGA have committed to delivering one video per month over the next 10 to 12 months. The first was on October 2, 2025. The second in the series is Miles Fiberglass & Composites. A shortened version of each video will be presented at a Business Meeting to meet time constraints. The full version will be publicly available after the business meeting.

Miles Fiberglass & Composites (Miles), located in Clackamas, is a family and woman owned business which has been manufacturing high-quality composite products for over 60 years. Miles is a 2024 grant recipient who received \$26,000 to invest in an updated Enterprise Resource Planning system to enhance efficiencies in bidding, scheduling, and production.

RECOMMENDATION:

No recommendation. Informational only.

Respectfully submitted,
