File No:	Date received:	Staff member:		
Applicant name:	Applicant email:	Phone:		
Address:	City:	State: ZIP:		
Land Use File number for the approved partition or subdivision:				
Road name approval is required PRIOR TO submittal of a Development Permit application or the Draft Plat				

Road name approval is required PRIOR TO submittal of a Development Permit application or the Draft Plat (whichever is submitted first). Any road that serves three or more lots is required to be named, even if some of the lots it serves are outside the area of the land division and even if the road is private. Knowing this, how many roads associated with the partition or subdivision will require a new name?

The road(s) does/do not serve existing homes. Address change(s) is/are not needed.

The road(s) does/do serve existing homes. Address change(s) is/are needed.

For a single road, list three road name choices in order of preference. They cannot duplicate or sound similar to existing road names in the county or each other. Use CMap to see if a choice is already in use.

For more than one road, label the required site plan with three road name choices for each road.

Attach a site plan or the draft plat showing the location of the road(s) and the lots receiving access from the road. Include the location of all driveways.

Staff will notify you if your road name selection(s) is/are approved.

FOR STAFF USE ONLY Approved road name(s): Assigned by: Date:
