EXECUTIVE SUMMARY: The Office of Economic Development, in collaboration with Public and Government Affairs (PGA), established a business spotlight video program in the Spring of 2025. The first series of videos features the FY24-25 Business Development Grant recipients. These Video Spotlights will be made public on the County website, incorporated into the County's video media, shared by the Commissioners during business and other meetings and utilized by the business for their own professional marketing.

The Office of Economic Development and PGA committed to delivering one video per month over a 10-to-12-month period beginning October 2, 2025. A shortened version of each video will be presented publicly at a Business Meeting. The next in the series is QB Fabrication & Welding.

QB Fabrication & Welding (QB) is a Clackamas-based metal manufacturing company that specializes in transmission towers, substations, and distribution products for the utility industry. Currently, QB is the only metal fabricator in the Northwest that manufactures steel lattice towers from 115kV to 500 kV. QB is a 2024 grant recipient that received \$50,000 for a capital project to purchase new machinery to help increase production capacity.

RECOMMENDATION:

No recommendation. Informational only.

Respectfully submitted,

Dan Johnson
