Judicial Watch Lawsuit Settlement Causes Review and Removal of 800,000 Ineligible Voters from Oregon Voter Rolls

(Washington, DC) - Judicial Watch announced a settlement in its federal lawsuit against Oregon election officials, which confirms 800,000 ineligible voter names are slated for review and removal from voter registration lists. The settlement requires state officials to produce detailed data and enforce federal voter roll clean-up procedures under the National Voter Registration Act of 1993 (NVRA).

Oregon County Suing Voter Integrity Group To Stop Examination Of 2020 Ballots, Admits Systems Can Be Hacked!

Press Room – May 19, 2022

0 0 AA 0

The state and county are arguing that simply showing the ballot images from the election could somehow compromise the computer systems, and that's why they shouldn't have to show the ballots to the public. **"Even when systems are not directly connected to networks, they are vulnerable to attack through physical or wireless access,"** argues state Attorney General Ellen Rosenblum in her motions, while also saying **"If the Court enters a judgment requiring the release of the ClearBallot database, that judgment would compromise the security of the election systems used in 15 Oregon counties."**

Total = Total # of registered voters per county and overall
Registered voters fall into two categories:
Active = Voters who are sent ballots
Inactive = Voters who are not supposed to be sent ballots

Removed and Added: The number of voters removed and added in just over one year - from January 2025 to March 2026

Jan-2021 to Jan-2026: The cumulative number of voters removed and added over the five-year period: the "churn" by county and statewide

DG Frank, 5/4/2026
