EXECUTIVE SUMMARY: Mimecast delivers advanced, cloud-based email security that protects organizations from phishing, ransomware, and impersonation attacks. Its AI-driven threat detection, real-time scanning, and URL protection significantly reduce cyber risk and safeguard employees. By consolidating security, resilience, and cybersecurity training into one platform, Mimecast strengthens the organization’s overall security posture.

The county started using Mimecast in FY2021-22. In order to secure better pricing, Technology Services seeks approval to renew Mimecast through CDWG using cooperative purchasing agreement OMNIA Mesa 2024056-01, for a total contract value of \$522,245.50 for 3 years.

RECOMMENDATION: Staff respectfully recommend the Board of County Commissioners approve the Board Order authorizing a PO with CDW-G for 3 years of Mimecast.

Respectfully submitted,

Linu Parappilly
Director of Technology Services
