CC: Carl Cox -Compliance Hearings Officer

STATEMENT OF RIGHTS

1. Prior to the Hearing. You have the right to make the following requests:

- (A) You can request the opportunity to review public records and talk to County Staff about the violations or request a subpoena for that purpose if the County does not allow you to do so.
- (B) You can request that the Hearings Officer postpone the hearing for good cause by writing the Hearings Officer at least 7 calendar days prior to the scheduled hearing date.
- (C) You can request that the Hearings Officer decide the matter based exclusively on written materials from the parties or conduct the hearing by phone.

2. Procedure. The hearing will be governed by general rules of procedure designed to allow you to hear and confront the evidence against you, and for you to present evidence favorable to you. You are not required to present any evidence; the burden is on the County to establish by a preponderance of evidence that a violation exists or existed. Either party may, at their own expense, obtain an attorney, to represent that at the hearing. If you wish to be represented by an attorney, they need only notify the County and the Hearings Officer in writing of their intent to appear on your behalf. The County will present evidence first, and then you may question that evidence. You may then present your own evidence, if you wish, and the County may question your evidence. Testimony by witnesses is evidence. The Hearings Officer may inquire into any facts that are relevant to the hearing and may question parties or witnesses about the case. Evidence of a type commonly relied upon by reasonably prudent persons in the conduct of their serious affairs shall be admissible.

3. Record of Proceedings. An audio record will be made of the proceedings when a hearing is conducted. The audio record is available through the Clackamas County Code Enforcement Section and is available to you upon request.

4. Hearings Officer. The Hearings Officer is an independent contractor paid by the County to conduct hearings and render decisions. He/she is not a County employee. His/her function is to preside over the hearing, make a record of proceedings, consider admissible evidence and interpret and apply the law. After the hearing is closed, the Hearings Officer will enter written findings of fact, conclusions of law and any Order deemed proper. If a violation is proven, then the Order may include civil penalties, fines, administrative fees, or may require the respondent to take certain actions, or refrain from certain actions. An Order issued by the Hearings Officer may be a final order or a continuing order. The Hearings Officer Order is the final decision of the County, and may be appealed pursuant to Oregon Law. The Hearings Officer for Clackamas County is:

**Carl Cox
Attorney at Law
14725 NE 20th Street, #D-5
Bellevue, WA 98007**

5. Right to Recess. If, during the course of the hearing, the Respondent or the County requests a recess or postponement, or additional time to present crucial evidence, the Hearings Officer may allow a continuance of the hearing for good cause. The Respondent may also request that the proceedings be continued after the end of the hearing if the Respondent determines that additional evidence should be brought to the attention of the Hearings Officer.

6. Right to Appeal. The Final Order of the Hearings Officer shall set forth the right of the respondent to appeal any adverse Order. Appeal may be taken pursuant to Section 2.07.130 of the Clackamas County Hearing Officer Code, and Oregon Revised Statute 34.010-34.100. If appeal is taken, the appellant is responsible for all costs of appeal including preparation of transcript.

BEFORE THE COMPLIANCE HEARINGS OFFICER
FOR THE COUNTY OF CLACKAMAS

CLACKAMAS COUNTY,

Petitioner,

v.

YUNJIANG HAO,

Respondent.

FILE NO(S): V0047722

COMPLAINT AND REQUEST FOR HEARING

I Shane Potter, Code Enforcement Specialist for Clackamas County, allege the following:

1.

Respondents' mailing address is: 14951 SE Paddington Rd., Clackamas, OR 97015

2.

The Respondent own/owns or occupies the address or location of the violation(s) of law alleged in this complaint 14951 SE Paddington Rd., Clackamas, OR 97015, also known as T2S, R2E, Section 12BA, Tax Lot 11600, the property is zoned VR 5/7 (Village Standard Lot Residential) and is the location of violation(s) asserted by the County.

3.

On or about the 25th day of April, 2024, and on or about the 9th day of September, 2024, the Respondents violated the following laws, in the following ways:

Title 12 of the Clackamas County Zoning and Development Ordinance (ZDO) Code Section 315.030 and 1307.15. The property is zoned VR 5/7 (Village Standard Lot Residential). This violation is a Priority 2 violation pursuant to the Clackamas County Violation Priorities.

4.

The Department initiating this procedure is the Code Enforcement Section of the of the Department of Transportation and Development.

5.

Notice of the violation was given to Respondent in the following manner:
Violation notice dated April 25, 2024 and Citation and Complaint #2200477-1 on September 9, 2024. A copy of the notice documents are attached to this Complaint as Exhibits G and I, and incorporated by this reference.

6.

Based on these allegations, the petitioner requests that a hearing be set in this matter. Petitioner seeks an Order from the Hearings Officer granting the following relief:

1. Pursuant to Clackamas County Code Section 2.07.090, ordering Respondent to immediately abate the violations and bring the property at issue into compliance with all laws, and permanently enjoining Respondent from violating these laws in the future;

2. Pursuant to Clackamas County Code Section 2.07.090, imposing a civil penalty against Respondent for each violation, within the range established by the Board of County Commissions. Said range for a Priority 2 for a Zoning Ordinance violation being \$500.00 to \$2,500.00 per occurrence as provided by Appendix B to the Clackamas County Code;

3. Pursuant to Clackamas County Code Section 2.07.090, ordering Respondent to pay an administrative compliance fee as provided by Appendix A to the Clackamas County Code; and

4. Pursuant to Clackamas County Code Section 2.07.090, ordering Respondent to reimburse the County for any expense the County may incur in collection of any penalties, fines or fees that may be imposed.

5. Ordering any other relief deemed reasonably necessary to correct the violations.

DATED THIS 14th day of May, 2025

5. The final subdivision plat shall conform to the East Sunnyside Village Plan.
6. The local street serving the site is an extension of Frontier Avenue which is planned within Pioneer Estates. The extension of this street must have sidewalks along both sides and meet the requirements illustrated on either Figure x-3 or Figure x-4. The new street must be constructed ~~as close as possible~~ to the standards in the Sunnyside Village plan. Some adjustments will be needed to transition from the R-4028 standard for right of way and street improvements previously approved in Pioneer Estates. The adjustments will be as follows:
 - a. The right of way shall be 42 feet plus sufficient easement must be provided for sidewalk to accommodate transitions for sidewalk design and usable planter strips. The sidewalk shall align with the sidewalks in Pioneer Estates, shall be 5 feet in width and shall transition to provide usable planter strips as required in the Sunnyside Village plan. *w/ no obstructions* *4' wide*
 - b. Setbacks for structures located on lots in Sieben Creek III shall be measured from the combined width of right of way and easements needed for the construction of improvements. This will help to provide adequate on site parking without encroaching into pedestrian access and meet the intent of a 20 foot setback from the sidewalk. *4' wide*
 - c. The curb line shall taper between Pioneer Estates and the south end of Sieben Creek III (from 28 feet curb to curb to 24 feet curb to curb). This will eliminate the need for jogs in the curb which are unsightly, pose a traffic hazard, and a maintenance problem.
7. It will be necessary to furnish street and drainage improvement plans prepared and stamped by a registered engineer in the state of Oregon. These plans must address street improvements to the new streets. These plans must also address storm drainage improvements to accommodate water on or crossing the subdivision. As the engineer develops these plans, he/she must take into consideration the provisions for each and every building lot consistent with the requirements of the County Zoning and Development Ordinance Section number 1008 and Service District No. 1. The County's requirements for storm sewer detention is applicable in this proposed development. These plans must also include a site specific erosion control plan in accordance with Clackamas County's Technical Guidance Handbook.
8. Provisions must be made for roof and foundation drains from the newly developed homes within the subdivision and must be detailed on the street and drainage improvements plans.
9. Furnish storm sewer easements as deemed necessary for the above-mentioned drainage work. The following statement must be added to the dedication on the subdivision plat:

"The public is hereby granted the right to maintain, replace or enlarge storm sewer facilities along these easements and will not be in anyway responsible for replacing the landscaping, fencing or other structures, shrubs or trees that may exist or be placed within the storm drainage easements. The public is required to give adequate notice before such activities are commenced and shall limit activities to that necessary to achieve the purpose of maintaining the storm drainage features."
10. Street trees are a requirement for this subdivision. The type and location of street trees shall be submitted to and reviewed and approved by staff prior to approval of the final plat.
11. Street lights are a requirement for the subdivision. The developer must make arrangements for the installation of street lights with the power company and to pre-wire for acceptance of these street lights. The developer must also submit an application by letter to the County Department of Utilities for the installation of the street lights and annexation into the street light district.
12. All improvements must be constructed and inspected or bonded via DTD prior to final plat approval. Sidewalk construction within the plat may be coordinated with house construction. However, the sidewalk design must be completed with the design of the new street.
13. The street stub shall terminate in a 1' x 42' strip deeded to Clackamas County prior to final plat approval. The developer must contact DTD regarding deed format.
14. The street construction, storm sewer, and utilities work must be designed and built to be compatible with adjoining existing approved plats and accommodate future needs of adjoining property.

15. Prior to approval of the street and construction plans, a copy of an approved site grading plan and a grading permit shall be submitted. Said permit is available through the Clackamas County Development Services Section.
16. Furnish slope easements as required to encompass all fill slopes that will support the project roadways. The following statement must be added to the dedication on the subdivision plat:

"The public is hereby granted the right to construct, reconstruct, maintain, repair or use the slope supporting the adjacent roadway, and will not in any way, be responsible for replacing the landscaping, fencing, or other structures, shrubs or trees that may exist or be placed within the slope easement. No buildings, footings, or excavations of any kind will be permitted within the slope easement. The public is required to give adequate notice before such activities are commenced and shall limit activities to that necessary to achieve the purpose of maintaining the slope supporting the adjoining roadway".
17. The developer is responsible for all applications, fees and coordination of Federal and State regulator offices with regards to fills and excavations in stream riparian zones and wetlands associated to the Clean Water Act and the Urban Stormwater National Pollutant Discharge Elimination System.
18. At completion of the initial paving/construction, the engineer shall submit one set of "As-Builts" on reproducible mylar.

LOCATION: West side of S.E. 152nd Drive, approximately 1/2 mile south of Sunnyside Road; Rock Creek area.

LEGAL DESCRIPTION: T2S, R2E, Section 1C, Tax Lot(s) 2100, W.M.

SITE ADDRESS: Not available.

TOTAL AREA INVOLVED: Approximately .60 acre

PRESENT ZONING: VR-5/7, Village Standard Lot

CITIZENS PLANNING ORGANIZATION FOR THE AREA: Rock Creek; Chris Utterback;
P.O. Box 1112; Clackamas, OR 97015; 658-5338

PROPOSAL: Subdivision to divide the property into four lots.

DECISION: Approval

The Planning Division staff has reviewed this application for a Short Subdivision. This application is subject to Sections 1600, 1603, 1000, 1105 of the Clackamas County Zoning and Development Ordinance. The Planning Division staff has reviewed these sections in conjunction with this proposal and makes the following findings:

1. The request is consistent with the Zoning and Development Ordinance.
2. The request is consistent with the Comprehensive Plan.

Based on the above findings, it is the decision of the Clackamas County Planning Division staff to approve this request for a Short Subdivision subject to the following conditions:

1. Approval is based on the preliminary plan submitted with the application. Any change in design, including lot layout and access to lots, must be approved by the Planning Division prior to final plat approval. Changes in approved access locations may also require additional public notice.
2. All conditions of approval shall be guaranteed or completed prior to issuance of any building permits unless otherwise noted below.
3. Within two (2) years of the date of this decision, a final subdivision plat survey of the approved map must be submitted to this office for review. Once approved by the Planning Division, the approved subdivision plat will be sent to the County Surveyor for review. When approved by the Surveyor, the plat must then be filed and recorded by the County Clerk. Failure to submit the final survey will void this subdivision approval.
4. The subdivision plat survey shall include a statement of water rights. The statement shall indicate whether a water right or permit is appurtenant to the subject property. The water right certificate number or permit number shall appear in the statement. (Reference ORS 92.120(5)). A copy of the approved final plat must be submitted to the Oregon Water Resources Department if the plat indicates a water right, or permit if appurtenant.

5. The final subdivision plat shall conform to the East Sunnyside Village Plan.
6. The local street serving the site is an extension of Frontier Avenue which is planned within Pioneer Estates. The extension of this street must have sidewalks along both sides and meet the requirements illustrated on either Figure x-3 or Figure x-4. The new street must be constructed as close as possible to the standards in the Sunnyside Village plan. Some adjustments will be needed to transition from the R-4028 standard for right of way and street improvements previously approved in Pioneer Estates. The adjustments will be as follows:

a. The right of way shall be 42 feet plus sufficient easement must be provided for sidewalk to accommodate transitions for sidewalk design and usable planter strips. The sidewalk shall align with the sidewalks in Pioneer Estates, shall be 5 feet in width and shall transition to provide usable planter strips as required in the Sunnyside Village plan.

b. Setbacks for structures located on lots in Sieben Creek III shall be measured from the combined width of right of way and easements needed for the construction of improvements. This will help to provide adequate on site parking without encroaching into pedestrian access and meet the intent of a 20-foot setback from the sidewalk.

c. The curb line shall taper between Pioneer Estates and the south end of Sieben Creek III (from 28 feet curb to curb to 24 feet curb to curb). This will eliminate the need for jogs in the curb which are unsightly, pose a traffic hazard, and a maintenance problem.

7. It will be necessary to furnish street and drainage improvement plans prepared and stamped by a registered engineer in the state of Oregon. These plans must address street improvements to the new streets. These plans must also address storm drainage improvements to accommodate water on or crossing the subdivision. As the engineer develops these plans, he/she must take into consideration the provisions for each and every building lot consistent with the requirements of the County Zoning and Development Ordinance Section number 1008 and Service District No. 1. The County's requirements for storm sewer detention is applicable in this proposed development. These plans must also include a site specific erosion control plan in accordance with Clackamas County's Technical Guidance Handbook.

8. Provisions must be made for roof and foundation drains from the newly developed homes within the subdivision and must be detailed on the street and drainage improvements plans.

9. Furnish storm sewer easements as deemed necessary for the above-mentioned drainage work. The following statement must be added to the dedication on the subdivision plat:

"The public is hereby granted the right to maintain, replace or enlarge storm sewer facilities along these easements and will not be in anyway responsible for replacing the landscaping, fencing or other structures, shrubs or trees that may exist or be placed within the storm drainage easements. The public is required to give adequate notice before such activities are commenced and shall limit activities to that necessary to achieve the purpose of maintaining the storm drainage features."

10. Street trees are a requirement for this subdivision. The type and location of street trees shall be submitted to and reviewed and approved by staff prior to approval of the final plat.
11. Street lights are a requirement for the subdivision. The developer must make arrangements for the installation of street lights with the power company and to pre-wire for acceptance of these street lights. The developer must also submit an application by letter to the County Department of Utilities for the installation of the street lights and annexation into the street light district.
12. All improvements must be constructed and inspected or bonded via DTD prior to final plat approval. Sidewalk construction within the plat may be coordinated with house construction. However, the sidewalk design must be completed with the design of the new street.
13. The street stub shall terminate in a 1' x 42' strip deeded to Clackamas County prior to final plat approval. The developer must contact DTD regarding deed format.
14. The street construction, storm sewer, and utilities work must be designed and built to be compatible with adjoining existing approved plats and accommodate future needs of adjoining property.

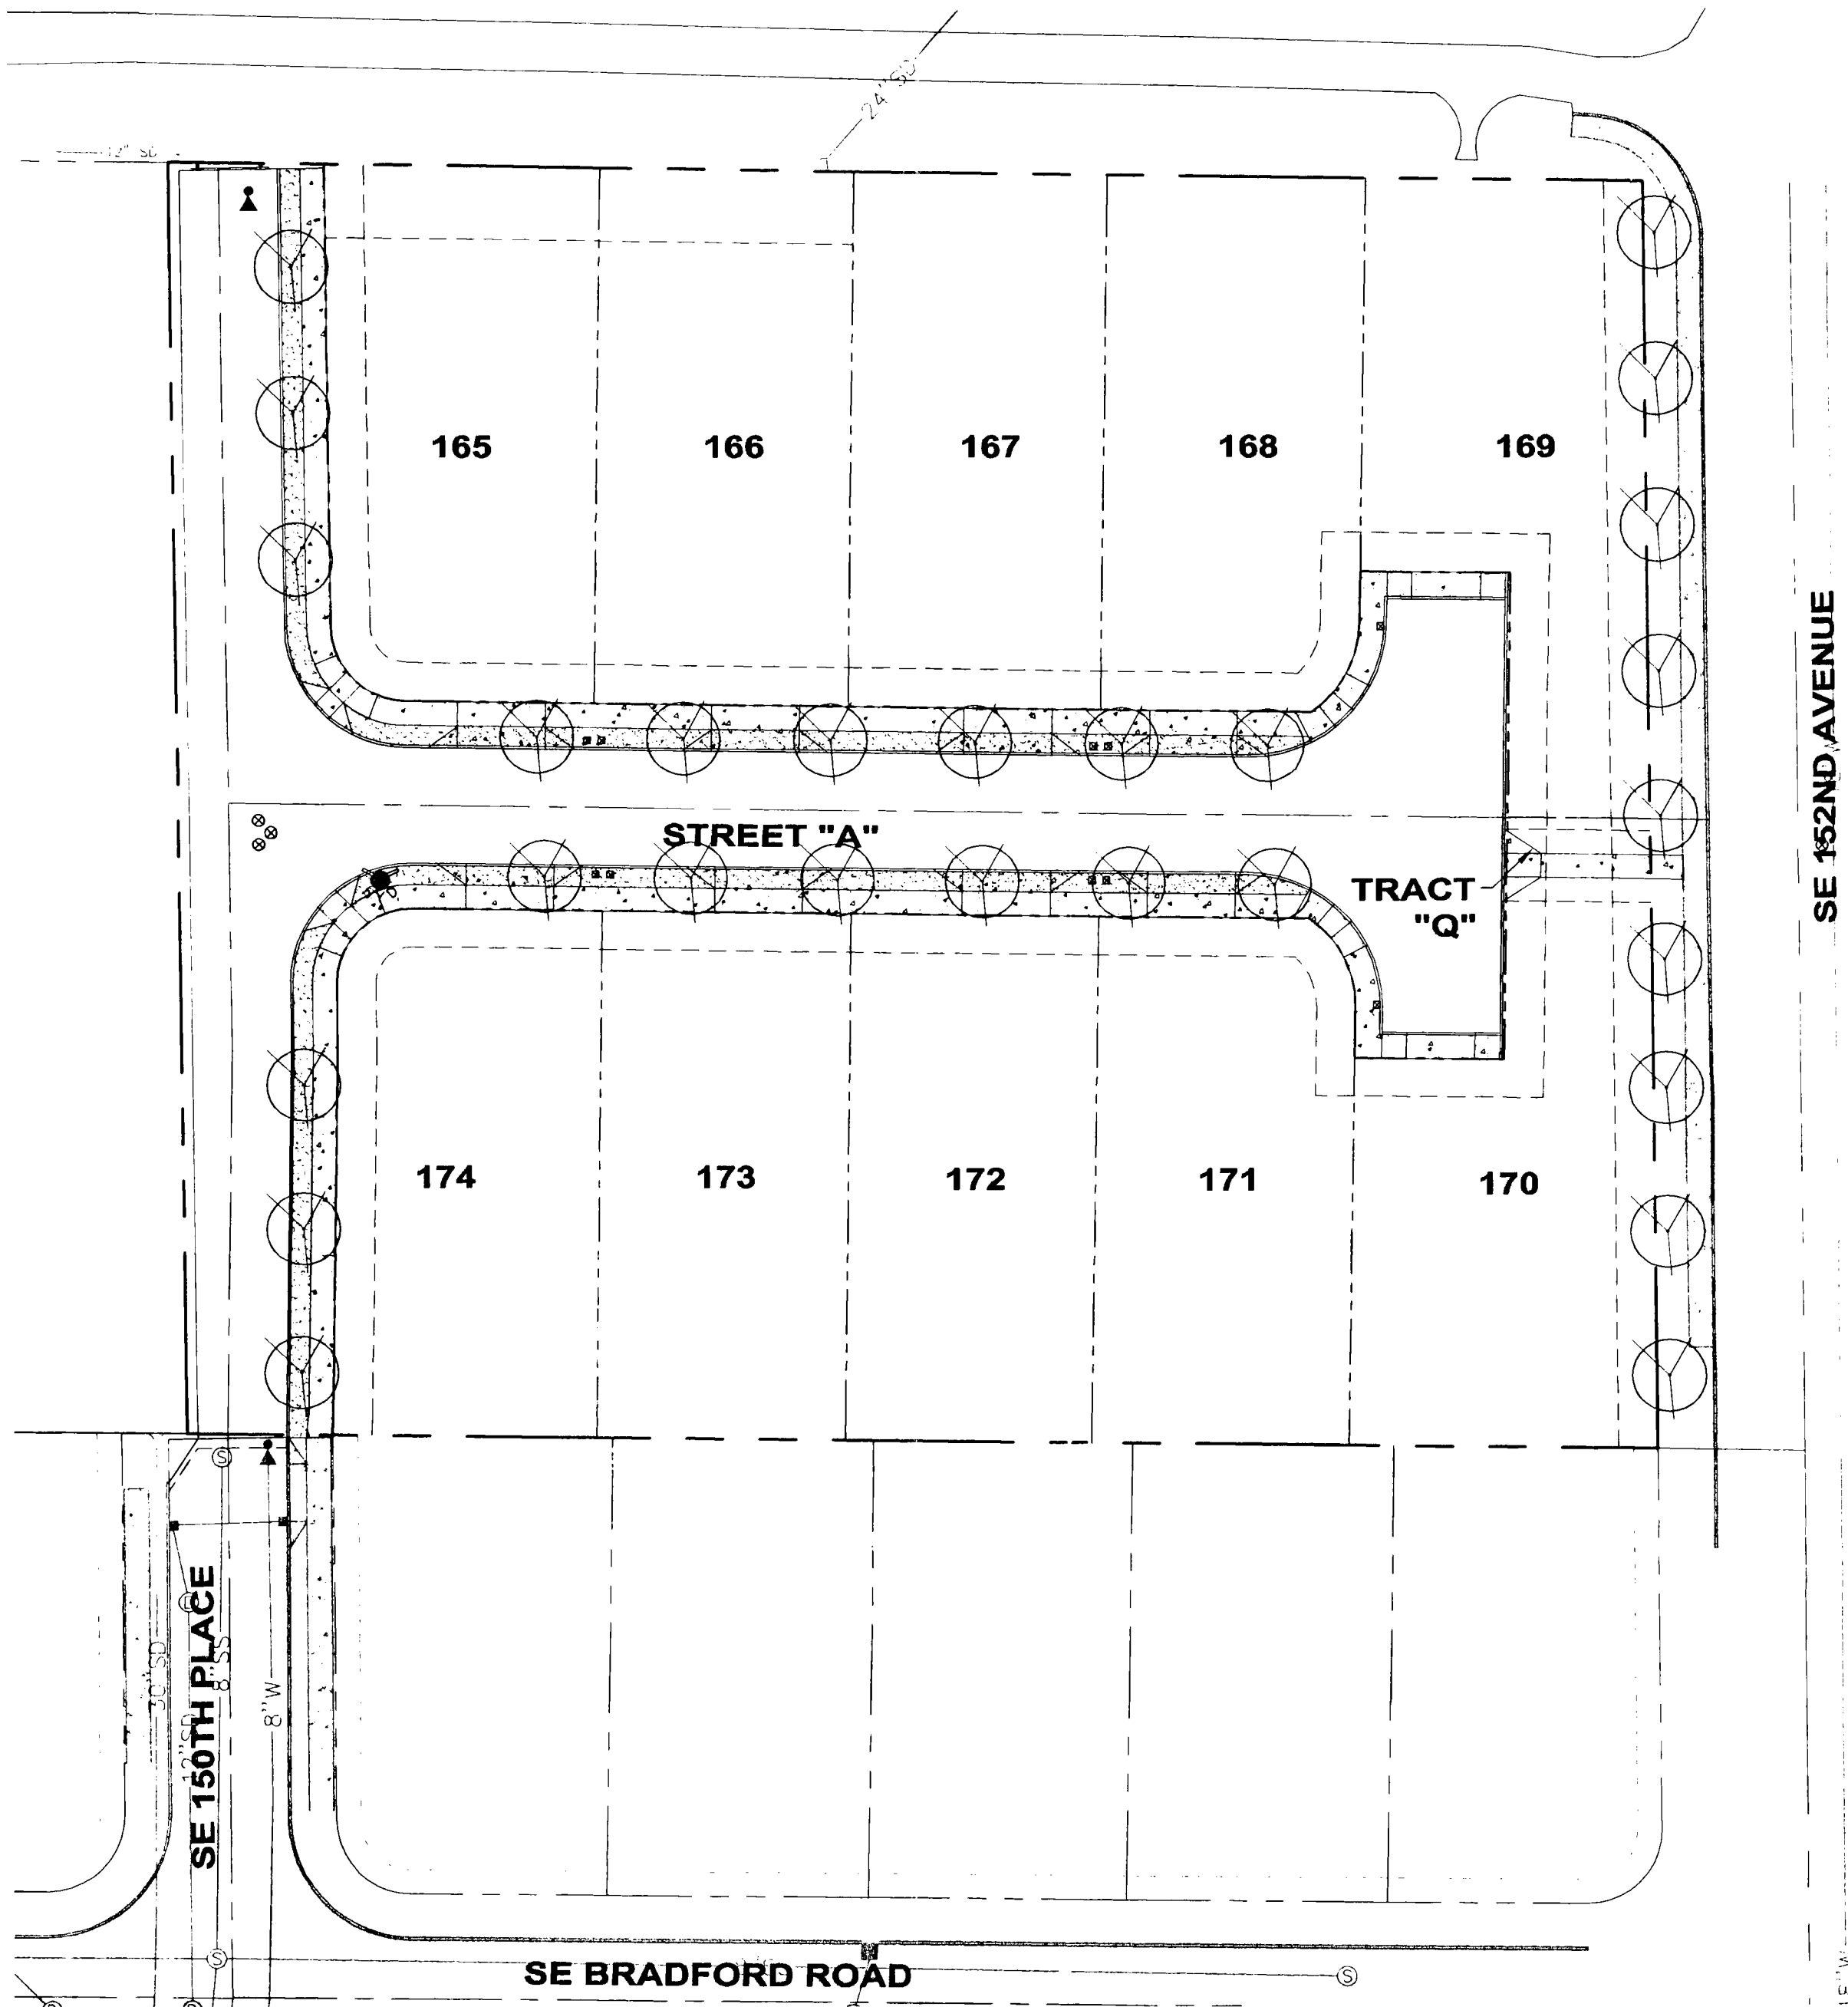

15. Prior to approval of the street and construction plans, a copy of an approved site grading plan and a grading permit shall be submitted. Said permit is available through the Clackamas County Development Services Section.
16. Furnish slope easements as required to encompass all fill slopes that will support the project roadways. The following statement must be added to the dedication on the subdivision plat:

"The public is hereby granted the right to construct, reconstruct, maintain, repair or use the slope supporting the adjacent roadway, and will not in any way, be responsible for replacing the landscaping, fencing, or other structures, shrubs or trees that may exist or be placed within the slope easement. No buildings, footings, or excavations or any kind will be permitted within the slope easement. The public is required to give adequate notice before such activities are commenced and shall limit activities to that necessary to achieve the purpose of maintaining the slope supporting the adjoining roadway".
17. The developer is responsible for all applications, fees and coordination of Federal and State regulator offices with regards to fills and excavations in stream riparian zones and wetlands associated to the Clean Water Act and the Urban Stormwater National Pollutant Discharge Elimination System.
18. At completion of the initial paving/construction, the engineer shall submit one set of "As-Builts" on reproducible mylar.

IRRIGATION NOTE:

- THE CONTRACTOR IS TO DESIGN, INSTALL AND MAINTAIN A PERMANENT AUTOMATED IRRIGATION SYSTEM TO IRRIGATE ALL PROPOSED PLANTINGS. THIS SYSTEM MUST MEET INDUSTRY STANDARDS, JURISDICTIONAL REQUIREMENTS AND THE WRITTEN SATISFACTION OF THE OWNER'S DESIGNATED REPRESENTATIVE.
- THE CONTRACTOR IS TO MAINTAIN THE IRRIGATION SYSTEM IN GOOD WORKING ORDER FOR TWO YEARS FROM THE DATE OF THE INSTALLATION ACCEPTANCE, OR AS SPECIFIED IN WRITING BY THE OWNER'S DESIGNATED REPRESENTATIVE.
- PRIOR TO INSTALLATION ACCEPTANCE THE CONTRACTOR WILL PROVIDE THE OWNER WITH AS-BUILT PLANS OF THE INSTALLATION AND COPIES OF ALL OPERATING MANUALS AND WARRANTY DOCUMENTS.

GENERA. NOTES:

- General**
- Plans and details on this sheet, the bid form, and these notes constitute the construction documents for landscape improvements at Addington Place Phase 4 in Clackamas Count, Oregon.
 - The Landscape Contractor must be licensed to perform this work in the State of Oregon.
 - All local, Municipal, County and State laws regarding uses and regulations governing or relating to any portion of the work depicted on these plans and details are hereby incorporated into and made part of these specifications, and their provisions shall be carried out by the contractor.
 - The Contractor shall obtain all necessary licenses, bonds, permits, and insurance required to perform the work indicated herein before commencing work and shall be responsible for coordinating work with all parties involved, including jurisdictional.
 - Contractor is responsible for locating and protecting any and all existing utilities on and adjacent to the project prior to beginning construction.
 - The Contractor shall locate and protect all existing utilities and features on and adjacent to the project site during construction, and shall repair at his own expense all damage resulting from his operations or negligence.
 - Protect existing buildings, walls, fences, pavements, reference points, monuments and markers on and adjacent to this site. Protect work and materials of other trades. Use all means necessary to protect the public from injury at all times.
 - Any discrepancies between these plans and the actual field conditions shall be reported to the landscape Architect prior to working in the affected area.
 - The Contractor shall maintain a clean and orderly construction site, removing all rubble, debris and excess materials. These materials shall be properly disposed of off site in a timely manner to avoid unreasonable disruption or mess. No materials shall be staged in public streets without written approval of the Landscape Architect.
 - Plant materials shall conform to American Nursery Association standards governing health, size, branching habit, form, and root development.

- General Inspection and Acceptance**
- The landscape contractor is to maintain the plant material until the work is completed through final acceptance of the project.
 - The project remains incomplete until accepted by owner.
 - Seeded lawn areas will be accepted provided a healthy, generally uniform in color, close stand of the specified grass is established, free of bare spots, weeds, ponding, non-continuous slopes and surface irregularities.
 - No fewer than two lawn mowings shall have occurred prior to final acceptance of any section of the work.
 - Upon completion of the irrigation system, as a condition of its acceptance and for final payment, deliver to the Owner's representative the following: A) 'As-Built' drawings that include 3 prints and the supplied reproducible irrigation showing at the min. valve location & size, controller number & size, GPM, pipe size, heads, quick couplers, manual drain and all other required system components. This base contains all revisions to the irrigation including a Controller Zone Reference chart and controller operation manual. B) Owner instruction for operation of system components & system winterization.
 - When the landscape work is completed, including the above-described maintenance, the Landscape Architect will, upon request, make an inspection to determine project acceptability. Notify Landscape Architect 48 hours prior to visit. The Landscape Architect shall determine whether the project is substantially complete and conditionally or unconditionally acceptable.
 - Where inspected landscape work does not comply with the specified requirements, replace rejected work and continue specified site maintenance until reinspected by the Landscape Architect and found to be acceptable. Remove rejected plants and materials promptly from the project site.
 - Final acceptance shall be in writing from the Landscape Architect or by Landscape Architect's release of the project retainer.
 - This Landscape Contract requires that all workmanship, supplied materials, site furnishings, plants, lawn areas, and the irrigation system shall be guaranteed, upon completion, (except for acts of nature and vandalism) for 1 year from job acceptance.

LANDSCAPE SPECIFICATIONS

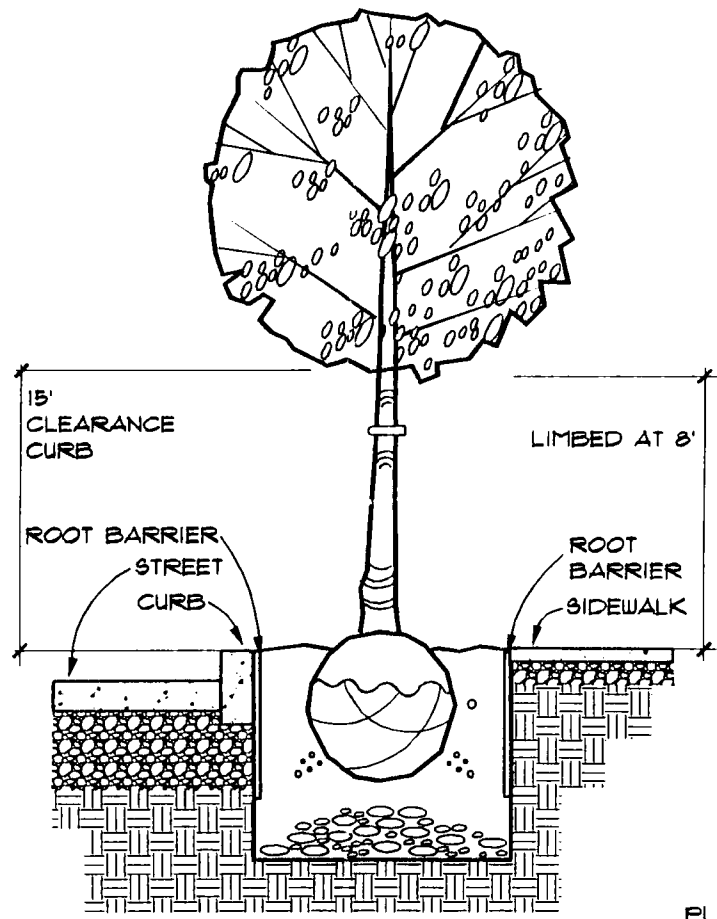

- PLANTING**
- SECTION A1 - General Specifications**
- Any discrepancies between these plans and the actual field conditions shall be reported to the Owner. In case of discrepancies between plant schedule, call-outs and plan, PLAN shall govern.
 - Notify owner for approval of fine grading prior to commencing plant installation.
 - The Contractor shall maintain a clean and orderly construction site, removing all rubble, debris and excess materials. These materials to be properly disposed of off site in a timely manner to avoid unreasonable disruption or mess.
 - All paved areas, fences or surfaces stained or soiled from landscape material shall be cleaned. All surfaces shall be washed with proper equipment and materials as approved by the Owner. Stage no dirt or bark in public streets without Owners approval.
 - All trees to be planted as per plan, specifications and details. After final raking, tree rings and mowing strips shall receive a 3" layer of medium grade COMPOSTED hem/fir bark mulch.
 - Any changes or substitutions in plant material or revisions to plant locations to be approved by Landscape Architect prior to planting. Adjust plant locations in coordination with Owner if deviations from planting plan are necessary due to unknown site conditions.
 - Plant materials shall conform to American Nursery Association standards governing health, size, branching habit, form, and root development.

- SECTION A2**
- Planting Specifications**
- Backfill soil for all plants shall be a mixture of three equal parts topsoil (from site), rotted manure or mushroom compost and rotted sawdust or leaf mulch. See planting details.
 - As necessary Preparation of soil for perennial overseed areas consists of 1/3 of APPROVED rotted sawdust or animal manure, 1/3 well drained sandy loam, 1/3 native soil, mix completely. See planting instructions below.
- Trees**
- All trees to be healthy, disease-free, well branched, with straight trunks and well crowned. Remove all dead, dying, and crossed branches. They shall have no cut off limbs over 3/4" diameter not completely healed over. Trees shall be free of scrapes and scars.
 - Wire baskets shall be cut away completely. Avoid ball breakage. The first 2/3 of the Burlap wrap shall be peeled away prior to backfill. Trees in tree wells shall be installed with crown flush or above surrounding grade and paving cover ball with 3" of bark.
 - All trees are to be planted a minimum of 24" from any fence, pole, wall, curb, sidewalk, property line or any other landscape feature, unless specifically called out in the plan. Trees shall be placed a minimum of 1' from irrigation rotor heads, minimum of 5' from street lights, unless noted otherwise.
 - Trees in tree wells shall be centered. Over excavate all compacted material.
 - Plant all tree according to details. Orient best side to dominant view.

- SECTION A3**
- Lawn Area Installation**
- Owner to review and approve layout of lawn area prior to seeding. Receive approval of fine grading prior to lawn installation.
 - All lawn areas adjoining sidewalks, concrete slabs, manholes or curbs are to be installed flush with the top of each surface to facilitate mowing and maintenance. Lawn areas adjoining fences, walls, utility vaults, buildings or other site features, shall have a uniform 6" barked mowing strip with catch to facilitate mowing and maintenance.

- Seeded Lawn**
- Grade base to maintain existing rough grading drainage, providing uniform and continuous slopes maintaining minimum 2% drainage unless noted for swales.
 - Rake and remove weeds and rocks over 1-1/4" in size in top 4" of soil.
 - Apply ground limestone at rate of 80 pounds per 1,000 square feet.
 - Thoroughly mix and then till (rototill) soil additives into soil base a minimum of 6" in a moist condition, then reestablish a level, smooth surface.
 - Roller seed bed with water filled roller in two directions to firm up bed. Regrade if necessary.
 - Spread Turf Treat lawn fertilizer at a rate of 5 pounds per 1,000 square feet.
 - Sow specified lawn seed (minimum 7 pounds/1,000 square feet unless otherwise specified) by seeder (do not apply if wind exceeds 5 mph) evenly over entire area by sowing equal quantity in two directions at right angles.
 - Rake seed lightly into top 1/3" of soil, roll lightly.
 - Apply mulch of damp peat moss 1/8" - 3/16" deep.
 - Keep mulch dark with moisture until grass is up.
 - Protect and maintain the seeded area until acceptance of established lawn.
- Note: Hydroseeding is an approved alternative unless otherwise noted. Hydroseed any areas with slopes greater than 4:1. Clean up all overspray not in the designated lawn area.
- Regrade, repair, and reseed all washouts and thin areas.

- SECTION B1**
- Maintenance Specifications During Construction**
- The Contractor shall maintain all landscape areas until project completion and acceptance.
 - Maintenance shall include at a minimum:
 - Regrade and re-bark any settlement, or erosion washout.
 - Monitor irrigation, adjust as required.
 - Seeded area care includes reseeded, repairing, weeding, policing and removal of unwanted plant materials and debris during specified period. Regrade with approved material and reseed all washouts. Fall leaf removal is outside the scope of this maintenance specification.
 - Composted bark mulch shall be maintained or brought to a 3" depth during this maintenance period.
 - Maintain all tree stakes and guys.
 - Maintain all barked areas weed free during maintenance period.
 - Any unsatisfactory conditions arising during this maintenance period shall be brought immediately to the attention of the Owner.

- PLANT ALL TREES W/ TOP OF ROOTBALL 1" ABOVE FINISH GRADE

LEGAL DESCRIPTION T2S, R2E, SECTION 12BA, TAX LOT 11600

Dear Ynjiang Hao,

Clackamas County Code Enforcement has received complaints regarding the removal of, or improper replacement of, street trees on your property. We would like to work with the property owners to resolve the following:

- Removal and replacement of required street trees.
- Addressing street trees that may be in violation of setbacks to utilities and driveways.

The street tree plan created when your neighborhood was developed lays out the number of street trees to be planted per residence. However, changes to the code requirements have occurred since development of this plan and in some cases fewer street trees are required due to distances from driveways and utilities.

Staff conducted a site visit of your neighborhood to determine if trees need to be replaced or removed. Staff has determined the following for your location:

1. At the time of inspection your lot had 0 street trees. The approved street tree plan from 1995 requires 2 street trees. After review of current codes and regulations we have determined that your lot will require 1 street tree. Before planting or starting any other work related to street trees please complete the following:
 - a. We encourage you to contact Roman Sierra at the Clackamas County Planning and Zoning Division at 503-742-4516 or by email at rsierra@clackamas.us to discuss the types of trees you will be planting to ensure they are on the allowed tree list. If you choose a tree outside of the street tree list you will need to work with Roman Sierra to determine if that street tree is an allowed tree.
 - b. Attached to this letter is a copy of the street tree standards labeled L100 and L200. Please adhere to those standards when planting. If you have additional questions about the installation requirements you may reach out to the Clackamas County Development Engineering at 503-742-4691 or by email at engineering@clackamas.us.
 - c. Call before you dig. Oregon Law requires utility locates to be requested at least two full business days but not more than ten full business days before beginning any excavation. Information can be found on the website at

EXHIBIT E PAGE 1 OF 5

www.digsafelyoregon.com. Your request can be made online by clicking on the "HOMEOWNERS Online Locate Request" box, or you can call 811 and speak with an operator at the One Call Center.

If you have questions concerning the steps you should take we encourage you to reach out to Code Enforcement Specialist Shane Potter as listed below, or stop by the offices located at 150 Beaver Creek Rd., Oregon City, OR 97045, Monday, Tuesday or Thursday between the hours of 8:00 a.m. and 4:00 p.m. The offices are closed on Wednesdays and Fridays

Important Notices

1. **Administrative Compliance Fees.** It is important that you contact the Code Enforcement Section to resolve the violations described in the enclosed letter. **An administration compliance fee of \$75 will now be assessed monthly until the violations are abated.**
2. **Failure to resolve those violations may result in one or more of the following:** (1) a citation and fine, and (2) referral of this matter to the County Code Enforcement Compliance Hearings Officer.
3. **Request for a Hearing:** If you dispute the existence of the violations described in the enclosed letter you may request a hearing before the Hearings Officer by sending a written request for a hearing, including your name and address to: Code Enforcement Section, 150 Beaver Creek Rd., Oregon City, OR 97045, or at codeenforcement@clackamas.us.
4. **Potential Fines and Penalties:** The Clackamas County Code provides for Citation fine amounts of up to \$500 and additional civil penalties imposed by the Hearings Officer of up to \$3,500 for each day the County verifies the noncompliance. Fine amounts and civil penalties may be assessed for each cited violation and may be assessed separately against each named party. In addition, the Hearings Officer may order the violation to be abated by the County at the expense of the property owner(s) and responsible parties.
5. **Voluntary Compliance:** Clackamas County encourages voluntary compliance with code violations to support a safe and healthy community for all. Please note that when a property owner works cooperatively with the County to resolve a confirmed code enforcement violation, the County may in its discretion waive all or part of the \$75 per month administrative fee.
6. **Non-Compliance may result in a lien upon your property:** Fines and costs are payable upon the effective date of the final order declaring the fine and costs. Fines and costs under this Chapter are a debt owing to the County, pursuant to ORS 30.460, and may be collected in the same manner as any other debt allowed by law. If fines or costs are not paid within 60 days after payment is ordered, the County may file and record the order for payment in the County Clerk Lien Record.
7. **Final Order may be enforced in Circuit Court:** Also, be advised that non-compliance with a Hearings Officer's Order may result in the matter being referred to County Counsel for legal action in Circuit Court which may result in additional penalties or other sanctions.
8. **Recurrences will result in additional Citations:** Finally, recurrences of abated violations may result in the issuance of a citation without prior notice.

PLEASE READ CAREFULLY!

You have been cited for the violation(s) of law stated on the front of this form. You MUST exercise ONE of the following options within fifteen calendar days of the date of this citation.

If you fail to exercise one of these options within fifteen calendar days of the citation date, the County may request a hearing before the Code Enforcement Hearings Officer following which you may be ordered to pay the maximum civil penalty and abate the violation.

Options:

1. Abate the violation and pay the fine. Sign the statement of Understanding below and deliver or mail this form, together with a check or money order payable to Clackamas County in the amount of the fine to:
Clackamas County Code Enforcement Section
150 Beavercreek Rd.
Oregon City, OR 97045
2. Request a hearing in writing. You may request a hearing to contest the violation(s) alleged. A written request for a hearing must be mailed to Clackamas County at the address listed above or sent to codeenforcement@clackamas.us.

A request for hearing must contain all of the following information:

- b. A copy of the citation or the Citation No. and Case No.; and,
- c. The description of the relief you are requesting.

At the hearing, an administrative fee may be assessed by the Hearings Officer in addition to civil penalty(ies) if the Hearings Officer concludes you are responsible for the violation. If a civil penalty is imposed the amount will likely exceed the fine amount on this citation.

STATEMENT OF UNDERSTANDING

I, the undersigned, do hereby acknowledge that I understand the following:

1. By paying the fine I admit the existence of the violation(s) alleged on this citation and my responsibility for it.
2. Paying the fine does not relieve me of my responsibility to correct the violation and to comply with all applicable laws.
3. Additional citations may be issued to me if I fail to correct the violation or violate other applicable laws.

v.

YUNJIANG HAO,

Respondent.

STATEMENT OF PROOF

History of Events and Exhibits:

Exhibit A	The Respondent's mailing address is 14951 SE Paddington Rd., Clackamas, OR 97015. Respondents own and/or reside on property located at 14951 SE Paddington Rd., Clackamas, OR 97015, also known as T2S, R2E, Section 12BA, Tax Lot 11600, located within Clackamas County. The parcel is zoned VR 5/7 (Village Standard Lot Residential). Exhibit A page 1 is a 2006 aerial and page 2 is a 2025 aerial.
Exhibit B	Land use file Z0433-94-SS is the land use decision for this subdivision. I have also included street tree maps.
Exhibit C	Code Enforcement Specialist (CES) Shane Potter and Planning staff reviewed the utilities and identified the original land use approval required 2 street trees to be planted. However, due to restrictions and setback requirements only 1 street tree must be planted.
October 18, 2022	Clackamas County received complaints regarding street trees not being replanted as required by the conditions of approval in the land use creating the subdivision as shown in Exhibit B.
November 8, 2022 Exhibit D	CES Potter conducted a site visit, and no street trees had been planted.
April 10, 2023 Exhibit E	The County issued a courtesy letter to all identified violators. This letter specifically requested the planting of 1 street tree.
April 4, 2024 Exhibit F	CES Potter conducted a site visit, and no street trees have been planted in the planter strip as required.
April 25, 2024 Exhibit G	CES Potter prepared a Notice of Violation for a Zoning Ordinance violation for failure to plant street trees as required in the conditions of approval. The notice provided a deadline of May 25, 2025 to abate the violation. The notice was mailed first class mail, and the mail was not returned.

August 8, 2024 Exhibit H	CES Kimberly Benthin conducted a site visit, and no street trees had been planted in the planter strip.
September 9, 2024 Exhibit I	Citation #2200477-1 issued for the Zoning Ordinance violation for failure to plant street tree in compliance of conditions of approval for land use file Z0433-04-SS. The citation was mailed first class mail, the mail was not returned, and the citation has not been paid.
December 5, 2024 Exhibit J	CES Potter conducted a site visit, and not street trees have been planted in the planter strip.
May 14, 2025	The County referred this matter to the Code Enforcement Hearings Officer.

If the Hearings Officer affirms the County's position that a violation of the Zoning Ordinance exists on the subject property, the County would request a Final Order be issued requiring the Respondent:

- Payment of Citation #2200477-1 for \$400.00.
- Imposition of civil penalties of up to \$2,500.00.
- Administrative compliance fee to be imposed from April 2024. As of the date of this report the total fee is \$825.00. However, due to inactivity the County is requesting a reduction of this fee of \$525.00 leaves a request for the administrative compliance fee of \$300.00.
- If the violations are not abated the County may request authorization for further enforcement action including to proceed to Circuit Court.
- The County requests the Hearing's Officer to permanently enjoin the Respondent from violating these laws in the future.
- The County would also ask that reimbursement be ordered for any expense the County incurs in collection of these monies.
