Additional Instructions

1. If you have any questions, contact the Engineering Permit Specialist at 503-742-4691. We will assist you in determining if your event qualifies for a block party permit, or if a different type of permit is required.
2. Hand-carry the petition to each neighbor and obtain proof of notification in the form of signatures on the petition. If a house is vacant, indicate that on the petition. You need to account for all of the addresses on the block and abutting properties to the closed street. For rental properties, if you cannot obtain signatures from the individual units, you need to obtain a signature from the property Management Company or landlord. Please document all attempts to obtain property owner/representative signature of notification on the petition.
3. The permittee is responsible for providing the barricades to close the street. Arrange to have three Type I barricades with "Street Closed" signs (equipped with flashing yellow lights if the street will be closed after dusk) to be placed at each end of the street OR any other specific devices required on the approved traffic control plan. You may find companies that rent barricades by searching for "Barricades" or "Traffic Flaggers" either on the internet or in the phone book. As the permit holder, you are responsible for providing and placing barricades, and for their removal by the stated end time of the permit.
